# Workshops Offered :: Trainings by Group

- **Slow Motion: How Slowing Down Will Move Your Ministry Forward**

Ministry moves at neck-brake speed. Does your life always feel like it's on fast forward? What if you're missing out on what's important? Discover four compelling reasons for why slowing down will actually move your ministry forward. Find the most effective ways to slow down and get four key leadership principles to help you create lasting leaders and take your ministry to the next level.

- **True North: Establishing Clear Mission & Vision**

Do you feel pulled in different directions as you lead your ministry? How do you determine your mission or vision? You need a compass to guide you and keep your ministry in alignment with your mission and that of your church! Through this workshop you'll discover true north for your ministry and find practical tools for keeping your ministry moving toward your goals. Be the magnetic leader that guides others toward a clear mission and vision—we'll show you how!

- **Team Up: A Game Plan with Parents**

Need a game plan for equipping parents to be the primary nurturers of faith development in their kids? Parents need to practice at your church what you want them to do at home. Many of them don't know how. We'll give you a game plan to team up with your parents! Explore four strategies that will establish some common ground and next level family faith at home!

- **5 Youth Ministry Lies—and How to Discover the Truth**

Like the stories that get told over and over again until they're "true," or the photos on social media that spread like wildfire until they're debunked, there are lies in Youth Ministry that many of us simply accept because we've heard them so often. We'll spend time together digging in to five of these youth ministry lies. And we'll work to discover "truths" that will help you build a strong Youth Ministry.

- **Over-Connected Teenagers**

Instagram, Smartphones, texting, Facebook, SnapChat, and so much more... These tools and other social media allow youth today to be "connected" with each other and literally the entire world—24/7. Teenagers today are constantly "on." How do we help them dis-connect—and why should we? Together we'll learn keys to helping the teens in our ministry break free and find time and space to "be."

### Schedule

8:00am—Registration & Refreshment  
8:30am—Welcome & Introduction  
8:40am—Workshop 1
