

Powerhouse Central Vacuums

We sell and install built-in vacuum systems as well as service all makes and models. We carry Beam, MD Products, Cyclo Vac and Aqua Air central vacuum systems. We have been in business since 1998 when we started a company called The Cleaning Supplier. We pride ourselves on prompt service and a commitment to service what we sell. We have a retail showroom, so you can send your clients in to look at the options available. We are proud to be located inside the Carpets Plus store on Sunset Blvd. Give us a call and let us give you an estimate on your next Central Vacuum System!
