

Rosenberg Associates

Rosenberg Associates is a locally owned full-service consulting engineering and land surveying firm employing a staff of 30 professionals. Our engineering experience brings real-world, time-learned working knowledge of the best industry practices for thousands of projects since our founding by Rick Rosenberg in 1989. Successful completion of these projects has enabled the firm to develop solid working relationships with a diverse range of partners in federal, state, and local governments; as well as private property owners and land developers. We currently offer services in civil engineering, structural engineering, geotechnical engineering, and land surveying.
